

SERVICE NOTICE

Optional Filing of Electrical Plan Review (EPR) and Electrical Inspection Requests Under the 2025 NYC Electrical Code before December 21, 2025

Only electrical work associated with new building, alteration, or demolition applications that require EPR or an Electrical Inspection may elect to comply with the technical provisions of the 2025 NYC Electrical Code before December 21, 2025.

For jobs requiring EPR pursuant to Section 110.2(B) of the 2025 NYCEC, an EPR filing, and approval is required prior to filing for an Electrical Permit Application in DOB NOW. Once an EPR filing has been approved by the DOB Electrical Plan Review (EPR) unit, applicants may submit an Electrical Permit Application via DOB NOW and enter the EPR approval number in the Job Description field. Any EPR filing received by DOB on or after December 21, 2025, will be reviewed under the 2025 NYCEC.

With the enactment of the 2025 NYCEC by [Local Law 128 of 2024](#), applicants may elect to comply with the technical provisions of the 2025 NYC Electrical code in accordance with [Buildings Bulletin 2024-008](#).

Where electrical work requires EPR review, and the applicant would like to use the 2025 NYC Electrical code, the Department will not accept EPR filing submitted before **August 15, 2025**.

How to Request an Inspection Under the 2025 NYCEC

When requesting an electrical inspection in DOB NOW: *Inspections*, the applicant must indicate that the electrical permit was issued under the 2025 NYCEC. Electrical work that obtained EPR approval and an electrical permit under the 2025 NYC Electrical Code will be subject to the requirements of the 2025 NYCEC during the Electrical Inspection. Electrical work that obtained EPR approval and an electrical permit under the 2011 NYC Electrical Code will be subject to the requirements of the 2011 NYCEC during the Electrical Inspection.
