

KISSENA CLOUDBURST HUB

RIGHT-OF-WAY STORMWATER MANAGEMENT

Select streets within the Kissena Cloudburst Hub Right-of-Way project area are being studied for the implementation of **Precast Porous Concrete Panels (PPCP)**.

PRECAST POROUS CONCRETE PANEL (PPCP) SYSTEM

The **PPCP** will be located in existing parking lanes and aim to improve neighborhood drainage during severe storm events to reduce the likelihood of standing floodwaters.

PRECAST POROUS CONCRETE PANELS (PPCP) POTENTIAL LOCATIONS
