⁴ The sick call triage hotline is always available during lock-out hours. An emergency lock-in would not prevent access to the hotline unless access to phones had been restricted as a part of the emergency lock-in measure. Nevertheless, emergency lock-ins do not prevent medical services and anyone with a medical need can still access the clinic during an emergency lock-in.

⁵ Pursuant to Local Law 164 of 2018, a continuous lock-in as used in this report refers to any period of time during which incarcerated individuals are confined to their cells or beds due to the combination of an emergency lock-in and either a scheduled lock-in or a lock-in extension, or both. For the purposes of this metric, these 24-hour lock-in periods are continuous lock-ins, including both scheduled lock-ins and emergency-lock-in periods.

		Slashing/Stabbing	4
		UOF Investigation	2
RNDC	General Population	Investigation - Other	2
		Other	1
		Slashing/Stabbing	6
WF	General Population	Slashing/Stabbing	1

In comparison to the previous reporting period, the number of department-wide emergency lock-ins and the number of lock-in extensions remained the same. The number of facility emergency lock-ins, the number of mandated services affected by an emergency lock-in, and the number of continuous lock-ins exceeding 24 hours increased. The number of partial facility emergency lock-ins and the number of housing area emergency lock-ins decreased.
