Governors Island Building 309 Renovation

Docket Number LPC-26-05390

LPC Public Hearing
January 27, 2026

Building 309 Project Overview

Project to renovate building for expanded use as an events and community public programming space. The building has hosted over 100 events over the past year, including programs for Governors Island Arts, NY Climate Week, and events hosted by Island tenants and community partners.

The Building is a non-contributing building to the Governors Island Historic District. It was historically used as a chapel (“Our Lady Star of the Sea”) and was formally deconsecrated following the departure of the United States Coast Guard in 1996.

Project Scope

Certificate of Occupancy and Place of Assembly Permits

New Deck

Addition of Gutter and Downspouts

Interior Renovation including:

- Additional Restrooms, including ADA Accessible
- Conversion of two windows into exterior doors
- Increased ADA accessibility indoors
- Addition of drinking fountain
- New janitor closet

Installation of Fire Alarm and Sprinkler System

Timeline

Governors Island Preservation and Design Manual Part III

Property Categories

Each of the buildings and sites within the historic district have been classified based on their individual historic and architectural significance.

- Category 1 properties are individually listed in the National Register of Historic Places, or have been designated as individual landmarks by New York City Landmarks Preservation Commission, and contribute to the significance of the Governors Island Historic District.
- Category 2 properties are contributing resources within the National Historic Landmark and the NYC LPC Governors Island Historic District.
- Category 3 properties are non-contributing elements within the National Historic Landmark and the NYC LPC Governors Island Historic District.
- Category 4 properties are intrusions into the Governors Island Historic District.

Building #309 is a Category 3 property.

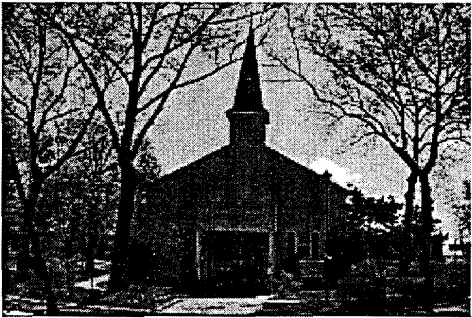

There are no exterior or interior elements of the building that should be preserved. This building may be demolished.

Building & Property Summary Sheets

BUILDING #309
CATHOLIC CHAPEL

Front Elevation

Site Location Map

ARCHITECTURAL DESCRIPTION

Building #309 is a one-story rectangular frame structure covered with vinyl siding. The gabled roof is covered with asphalt shingles. A tower at the north end, rising behind the entrance porch, has a copper finial. A brick chimney is at the south end. The window openings have six-over-six sash on the north end; the other window openings on the sides have sixteen-over-sixteen sash set behind storm sash.

SITE LOCATION

The building occupies a prominent triangular site at the intersection Clayton and Comfort Roads.

HISTORIC DEVELOPMENT

Building #309 was built as Our Lady Star of the Sea Catholic chapel c.1942, during the Army base's Second World War expansion. It continued in that use until 1997.

SIGNIFICANCE

Building #309 is a Category 3 property.
It represents the ongoing development of the military community on Governors Island.

WHAT IS IMPORTANT TO PRESERVE?

The exterior of Building #309 has been substantially altered by the addition of vinyl siding and other alterations, including a rear addition with wood steps and covered landing, and the front entry vestibule. The original architectural integrity of the building has been lost.

There are no exterior or interior elements of the building that should be preserved. This building may be demolished.

LANDSCAPE & SITE FEATURES

The mature trees and landscaping surrounding the property should be preserved and maintained.
